

EATON, OHIO, JAN. 8, 1857.

To Our Readers. Contrary to expectation, we are again seated upon the three legged stool, inditing a Salutatory epistle to those in the full assurance that the Farewell then expressed, would be forever, but, "There is a Divinity that shapes all our ends,

Rough hew them as we will and this National gala day, rendered immortal in our history, by the glorious victory achieved over our enemies at New Orleans, by the American soldiery under "old Hickory," finds us launching upon the ocean of public sentiment. the "Preble County Democrat," triple armed for the contest, and ready to fight on, fight ever, in the glorious cause of Democracy.

It is unnecessary for us to speak of the course we intend to pursue. In the future, as in the past, we shall go where democratic principles point the way. when they cease to lead, we shall cease to follow. Our highest ambition shall be to warn the people of the designs of the opposition, under every name, shape and color, and proclaim from the house-top, that, under the cherished name of American, or Republican, there are designs which savor neither of Republicanism nor true Americanism, but, which if carried out, will not only retard the development of our institutions but rob us of our liberties, and destroy this glorious Union of States, cemented together by the blood of patriots and heroes, whose devotion to true Republicanism and Democratic Liberty, was demonstrated by their risking in the cause, their lives, fortunes and their sacred honor.

We might say much to the Democracy of Old Preble, in regard to the support of their County Organ, but they know their duty, and knowing it, we sincerely hope they will discharge their part, by supporting the Democrat, and rendering unto it that kind of patronage which alone can make it efficient in the advocacy of those time honored principles they so fondly cherish.

We have invested in the purchase of ble, not only politically, but as a medium of general intelligence, and we want the name of every democrat in Preble county upon our subscription list, and his dollar and a half in ADVANCE !-Every true domocrat who loves the principles of Washington, Jefferson, Jackson, Polk, Pierce and Buchanan, will not at this time wait for further solicitation, but at once cheerfully aid in supporting the Preble County Democrat, and assist in giving it that efficiency so desirable at all times, but particularly so, during a political campaign.

The demise of the Eaton Democrat and the consequences which produced that result, were not only a reproach to the democracy of the County, at home, but throughout the State, and feeling that they had been negligent in the give us that support it is our right to expect, and their ability to render, and we issue this number of the paper, with a larger subscription list than any Democratic paper ever had in Preble county, and a hope of increasing our circu- all who intend to patronize us. We belation several hundred more in a very lieve it will be the result of good to the short time.

But enough. We wish all our readers a Happy New Year, and trust that ry democrat in the county come into the there may never exist cause for mutual regret that the Preble County Democrat was ushered into existence.

L. G. GOULD.

Thanks

To Mr. JOHN HOLDERMAN, for the list of new subscribers he procured for us. If each of our old patrons in the county will do half as well as our friend John. our list will be fifteen hundred before three months have passed by. We want to hear from some more of our friends soon, who have prospectuses in their

Lyceum Meeting.

ton, and it is hoped that all favorable of gation to do more than merely mention See his adv. such an association, will he present on the fact. Send for a copy, the price is the above occasion, and assist in giving nothing.

Gov. Chase's Message. This document was read before the

Senate and House on Monday morning per. Those who are after bargains last. It is very lengthy, which prevents would do well to give them a call. us from laying it before our readers this week, or making any comment.

The Future of Black Republi-

We noticed an article a short time ago from the New York Journal of Commerce, giving an exposition of the vote for President in 1852 and '56, by merce, we have no reason to fear the ultimate triumph of the enemies of the

South and the Constitution. In an excellent article on "The Re

sult," the Washington Union of a late date likewise demonstrates the improbability of this sectional faction ever acquiring control of the government .whom we a few weeks since bade adieu. Previous to the election, as the Union says, the Black Republicans claimed with the utmost confidence that they would sweep every free State; that New York would go for them by 75,000 majority over the combined strength of all opposition; that Ohio was theirs by a still larger majority; that Pennsylvania rous.

The Ocean Telegraph. Among the people of this remarks. ble age, the projected magnetic telegrap across the Atlantic, from Europe America, will be considered, on the event of its success, the greatest. Twenty-five years ago, had the prediction been made that messages would have been sent unlittle more than five-eighths of a mile); der the Atlantic Ocean from London to New York in less than a minute, it would have been received with as much incredulity as would now a proposition to build a railroad to the moon. It will, indeed, be a remarkable exhibition of horses, 432 reindeer, 1,800 dogs, and 580 boats and barges. In 1825, the number and knowledge which is constantly working out results that confound and astound the world. The Philpdelphia Ledger, in noticing this great work, indulges in the following lively and agree able speculations. It says:

"The charges are high, it is probable that, at first, there will be some associa-ted press arrangement by which the markets and most important outlines of the news will be daily transmitted each way. This cannot hold for long. Map moth papers, like the London Times, will want their special column daily from their own correspondents. Our own journals will not be found deficient in this kind of enterprise, nor should we be surprised if in six months, one line has more but iness than it can perform, and other wires have to be laid. Besides this, the private communications of business men will be immense. The large houses of New York and London will want to communicate important transactions daily. Brown, Howen & Co., and Brown, Shipley & Co., Hope and Rothschild, in fact, all the really large houses, dealing either in stocks, exchange, or produce, must and will have almost daily correspondence in cipher.

And not only between New York and London, but from Chicago to Calcutta, and all in between, will make use of this, Anxiety regarding the Herman, says the sole highway of lightning and of the N. Y.
